

Theme Plan

AutoEXPERT is an independent magazine bringing information of technical, economic and legislative character in the field of repairs, service and sale of passenger and utility vehicles to professionals.

THE FOLLOWING SERIES ARE COMMON FOR ALL TEN EDITIONS IN 2020

- Useful helpers – a special series devoted to special products and their use in workshops.
- Masters' League – The section is written by top professionals in the field of diagnostics, describing specific measurements and procedures in the rectification of failures.
- Tips for Connoisseurs (logical diagnostics) – Another diagnostics section prepared by the professionals from the FCD diagnostic portal.
- Supplement "Practical Workshop" – contains descriptions of individual groups of vehicles, manuals and instructions on repair procedures and other professional topics.

SPECIAL SUPPLEMENTS

- AE 4 – Painting, Surface Finishes and Welding (tips from practice, technologies, techniques, legislation and news, problems of automotive glass)
- AE 5 – Air-conditioning Maintenance (repairs and diagnostics of failures, devices for air-conditioning maintenance, service concepts)
- AE 7+8 – Service Fluids (fuels and lubricants)
- AE 10 – Vehicle preparation for a winter season
